Ergonomics matters

ERGO FORCE

Antistatic chair

ErgoProfil ESD

Upholstered industrial chair for use in antistatic protection zones (EPA). Height adjustment is achieved using a pneumatic lift and the synchronous mechanism of the chair allows for smooth adjustment of the height and angle of the seat and backrest.

Upholstered seat and backrest

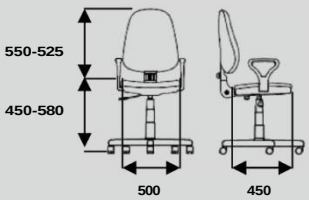
Chrome plated gas column

Five-star base made of chrome-plated steel

Self-braking, conductive, rubber-coated casters

Technical specification:

a) Dimensions:



b) Weight: 13kg
c) Seat/backrest resistance to ground:: $1{,}1x10^{6} < Rg < 1x10^{8}\Omega$
d) Fabric parameters::
- composition: 98% PE FR, 2% CB
- abrasion resistance EN ISO 12497:2000- 120000 cycles +/- 20%
- flammability: meets PN- EN 1021-1, PN-EN 1021-2

e) Casters: for all surfaces; self-locking; conductive

Available options:

higher gas column, footrest, glides

| Fabric colours black grey

Warranty - 24 months. Made in Poland.
